General technical info

Power supply	400 | 50 | 3	Volt|Hz|Phase
Motor power	1,1 (1,5)	kW (hp)
Motor speed	2800	rpm
Acoustic emission	72	dB
Overall dimension (Width x Depth x Height)	390 x 760 x H. 710	mm
Weight standard machine	42	kg

• Chamfer - bevel unit

Bevel dimension (diagonal)	0 ÷ 6	mm
Bevel angle	15 ÷ 45	°
Milling cutter diameter	ø 80	mm
Quantity of widia insert milling cutter	10	No.
Widia insert type/code	SPUN 12 03 08	ISO
Support table dimension	100 x 500	mm
Peripheral speed	12	m/sec

• Belt grinder unit - wheel processing

Abrasive belt dimension (wide x length)	50 x 1250	mm
Peripheral speed	30	m/sec
Dimension of working plane (behind abrasive belt)	60 x 300	mm
Dimensions of grooved rubberized driving wheel (wide x diameter)	50 x ø 200	mm
Orientable belt grinding arm	0 ÷ 90	°

Standard Equipments

Machine respect CE stamp of compliance
- Machine with CE conformity mark made respecting the requirements of the most recent
  directives concerning it.
- Machine complete with instruction manual complete with CE conformity certificate, test sheet and
  exploded view with relative spare parts list.
- Machine equipped with a set of service keys suitable for the adjustment and maintenance of the machine.

Guarantee of European standards
The stringent tests guarantee that all the requisites and standards necessary to obtain the guarantee in accordance with European standards are respected. Since the project we dedicate a lot of care and attention to making the machine with high quality level to deliver machines that last over time.

Base
Stable bench structure with anti-vibration rubbers at the base.

Electrical panel
Electric controls with emergency stop and anti-reset function for accidental starting and electronic overload protection.

Orientable arm sander
Arm sander adjustable from 0 ° to 90 ° and intermediate positions.

Work surface
Behind the abrasive tape has a durable floor in abutment replaceable steel over time.

Seq. 02910 - Rel. 280721

Rubberized grooved wheel
Rubberized, grooved and balanced drive wheel for better drag of the abrasive belt.

Abrasive belt
Abrasive belt mounted on the machine ready for use.

Belt grinder cover
Carter sander with predisposition connection system.

Hardened guide coating
Rectified and grooved guides with hardening treatment for a prolonged friction resistance.

Axial movement
Axial displacement for full use of the cutting surface of the inserts.

Variable chamfer angle
Chamfering guide with index for bevels from 15 ° to 45 °.

Copyright © Aceti Macchine s.n.c. | All rights reserved

Handwheel
Handwheel for chamfer dimension adjustment.

Miller body
Milleler body complete with 10 tungsten carbide inserts.
